

June 26, 2020

Greetings Continental Sisters,

I hope everyone is doing well. For several months we have had to change the ways that we interact due to health-related issues surrounding COVID-19. Many jurisdictions are relaxing their regulations regarding social distancing; however, there has also been an increase in new COVID-19 cases daily. The health of our membership is of paramount concern. Continental sisters, given our demographic and that many of our members are members of the vulnerable population who can sustain dire health consequences due to COVID-19, please be advised that we will continue to exercise social distancing until further notice.

Please be advised that:

- All in-person meetings continue to be suspended until further notice.
- There will be no in-person activities related to Membership Intake. Virtual guidelines regarding Membership Intake can be obtained from the National Second Vice President, Melvinor Kendrick.
- There will be no in-person Continental ceremonies until further notice.

Please continue to exercise caution as we continue to weather the pandemic.

- Wear your mask
- Wash your hands
- Exercise social distancing

I am happy to entertain any questions or concerns. Feel free to contact me at nationalpresidentcsi@gmail.com

Continentially,

Robin T. Browder
National President
Continental Societies, Inc.
